FOR ASTIGMATISM

Designed for **stability** Built for **performance**

Only ACUVUE® has **BLINK STABILIZED® Design** with 4 stability zones¹

More resistant to the effects of gravity and head tilts²

Minimal lower lid interaction^{2*}

Prism Free Optic Zone^{3†}

ACUVUE® retains astigmatic patients better than any other brand^{4‡}

Keep your astigmatic patients in the game, choose **ACUVUE®**

ACUVUE®

* Traditional prism and peri-ballast lens designs have a thicker area below the lower eyelid than ACUVUE® Brand Contact Lenses for ASTIGMATISM that can cause interaction and may cause unwanted rotation due to lateral movement of the lower lid during blinks.

† Vertical heterophoria possibly caused by prism dissociation due to the presence of induced optical prism is a relevant factor for practitioners to consider when fitting toric contact lenses for monocular astigmatism or those requiring a mix of toric soft contact lens designs.^{5,6} Clinical studies have not been done to fully characterize the clinical effects of differences in base down prism among different contact lenses.

‡ GfK survey conducted on a monthly basis, data polled from January 2018 - July 2019. Sample comprised of 591 US Eye Doctors.

References: 1. JJV Data on File 2016. Design Enhancements and Resultant Benefits of ACUVUE® OASYS Brand Contact Lenses 1-Day with HydraLuxe® Technology for ASTIGMATISM 2. JJV Data on File 2021. Toric lens thickness profile images and vertical prism measured in the optic zone. 4. JJV Data on File 2019. Survey conducted from January 2018 - July 2019. Sample comprised of 591 US Eye Doctors. 5. Important safety information: ACUVUE® Contact Lenses are indicated for vision correction. As with any contact lens, eye problems, including corneal ulcers, can develop. Some wearers may experience mild irritation, itching or discomfort. Lenses should not be prescribed if patients have any eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. Consult the package insert for complete information. Complete information is also available from Johnson & Johnson Vision Care, Inc. by calling 1-800-843-2020, or by visiting www.jnjvisionpro.com.
